

Ayelén Campot

Frontend Developer | User Research | User Behavior | Product Thinking
ayelencampot@gmail.com | LinkedIn | Portfolio

Profile

Frontend Developer with over 6 years of experience in digital products, with a focus on user behavior analysis and experience improvement.

Experience identifying friction points in interaction flows, analyzing usage patterns, and translating these insights into product decisions in real business contexts.

Hybrid profile combining a technical background with studies in Advertising, Sociology, and Data Analytics.

Currently aiming to transition into User Research roles, deepening expertise in behavioral analysis and the generation of actionable insights.

Professional Experience

Devecoop – Frontend Developer (SSR) | UX and User Behavior

Jan. 2023 – Present

- Analyzed user behavior in digital experiences, identifying friction points in onboarding and interaction processes to improve flow clarity.
- Identified usage and behavioral patterns to optimize user engagement and overall experience clarity.
- Conducted heuristic evaluations to detect usability issues and improvement opportunities.
- Prioritized experience improvements based on detected patterns, considering user impact and business constraints.
- Contributed to the definition of user flows in gamified experiences, considering context of use and user motivation.
- Iterated on interfaces based on behavioral insights, optimizing experiences within business, time, and technical constraints.
- Developed digital products and promotional platforms for international brands such as Danone, Vichy, and Clorox.
- Implemented frontend interfaces using Laravel Blade and SASS, ensuring scalability and visual consistency.
- Collaborated with product, design, and business teams in international environments.

Amapola Digital – Marketing Agency – Digital Strategy and Web Development

2018 – 2023

- Analyzed audience behavior and optimized campaigns based on performance metrics.
- Developed websites with a focus on user experience and conversion.
- Identified user needs and improvement opportunities within digital experiences.

Web Development Instructor – Coderhouse

Mar. 2021 – Feb. 2023

- Communicated technical concepts clearly, adapting content to different user profiles.
- Mentored students in hands-on projects.
